Learners find, evaluate and select information sources in response to an information need.

THINK

THINK
Learners develop their own personal resource collections and exchange organized information sets with others.

SHARE

SHARE
Learners add value to a collection of resources by organizing and annotating them.

CREATE

CREATE
Learners reflect on and revise their information sets in an iterative process.

GROW

GROW

START WITH: RELEVANCE

SCHOOL LIBRARIANS LEAD

- Provide equitable access to materials at times of need, including out of school time.
- Foster an understanding of the need for information and systems to make it accessible.
- Engage in an ongoing cycle to discover, organize, describe, promote, and reflect on resources in all formats.
- Expose learners to a variety of tools to cite, organize, describe, and share resources.
