Learners appreciate the value of and critically analyze the merits of different perspectives.

THINK

Learners respectfully communicate thoughts and ideas while listening to others who have contrasting points of view.

SHARE

Learners deepen their understandings as they identify with the stories, thinking, and experiences of others.

CREATE

Learners seek opportunities to learn about others’ differing experiences and opinions.

GROW

SCHOOL LIBRARIANS LEAD

- Showcase learner success and celebrate differences and similarities through learner-led projects, displays, and initiatives.
- Build a collection that reflects the diverse global community.
- Create flexible learning spaces to meet all students’ needs.
- Use principles of Universal Design to meet the needs of all individuals.

Learners demonstrate empathy and equity as they embrace diversity and make informed decisions.
